Case study of business flow

Materials are shared at GitHub

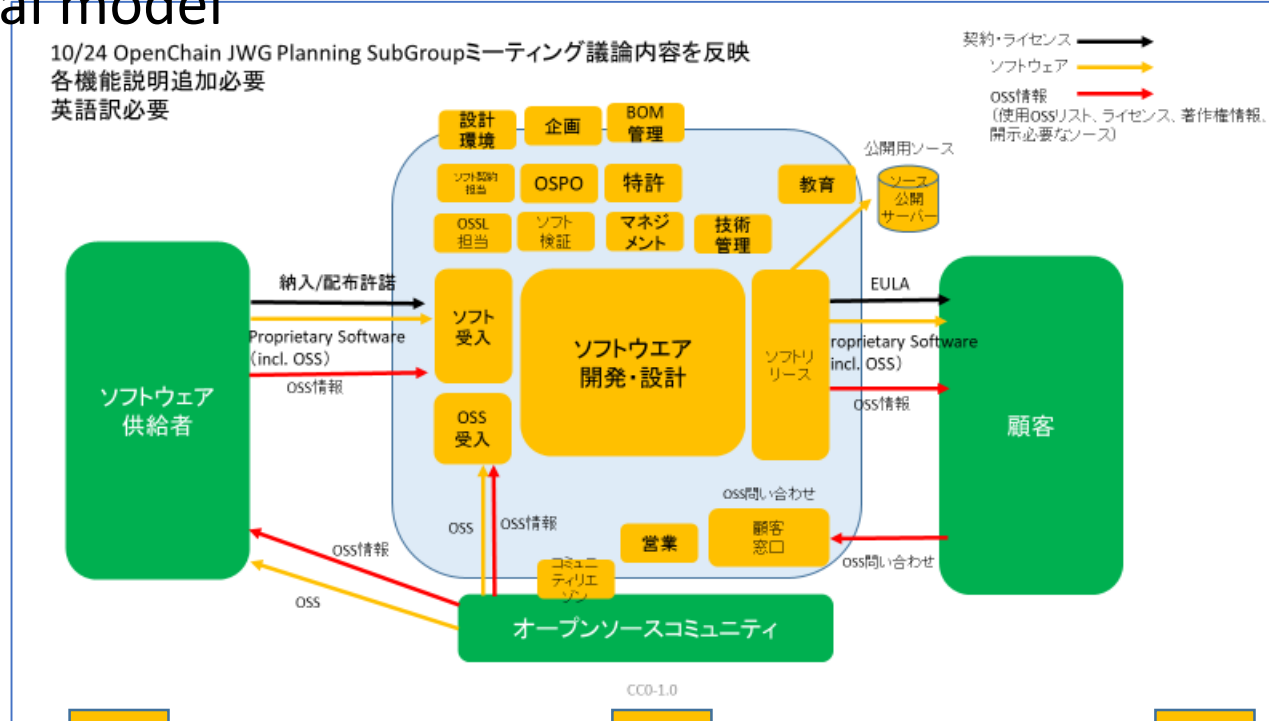

<https://github.com/OpenChain-Project/Onboarding-JWG/tree/master/CaseStudy/BusinessFlow>

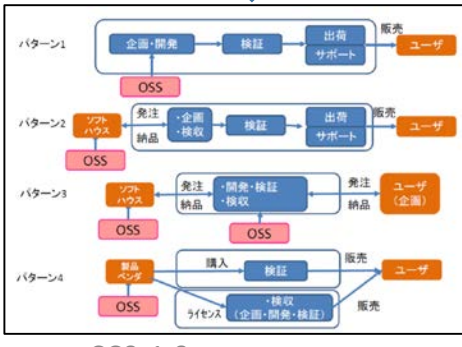

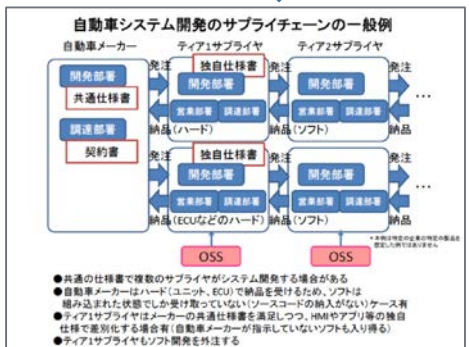

Universal business flow model

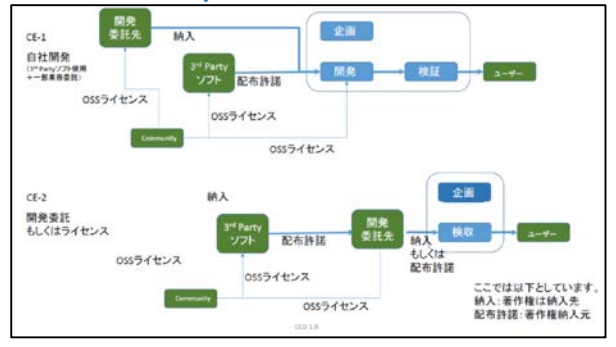

Applying universal model

Applying universal model to specific business

CC0-1.0 CC0-1.0

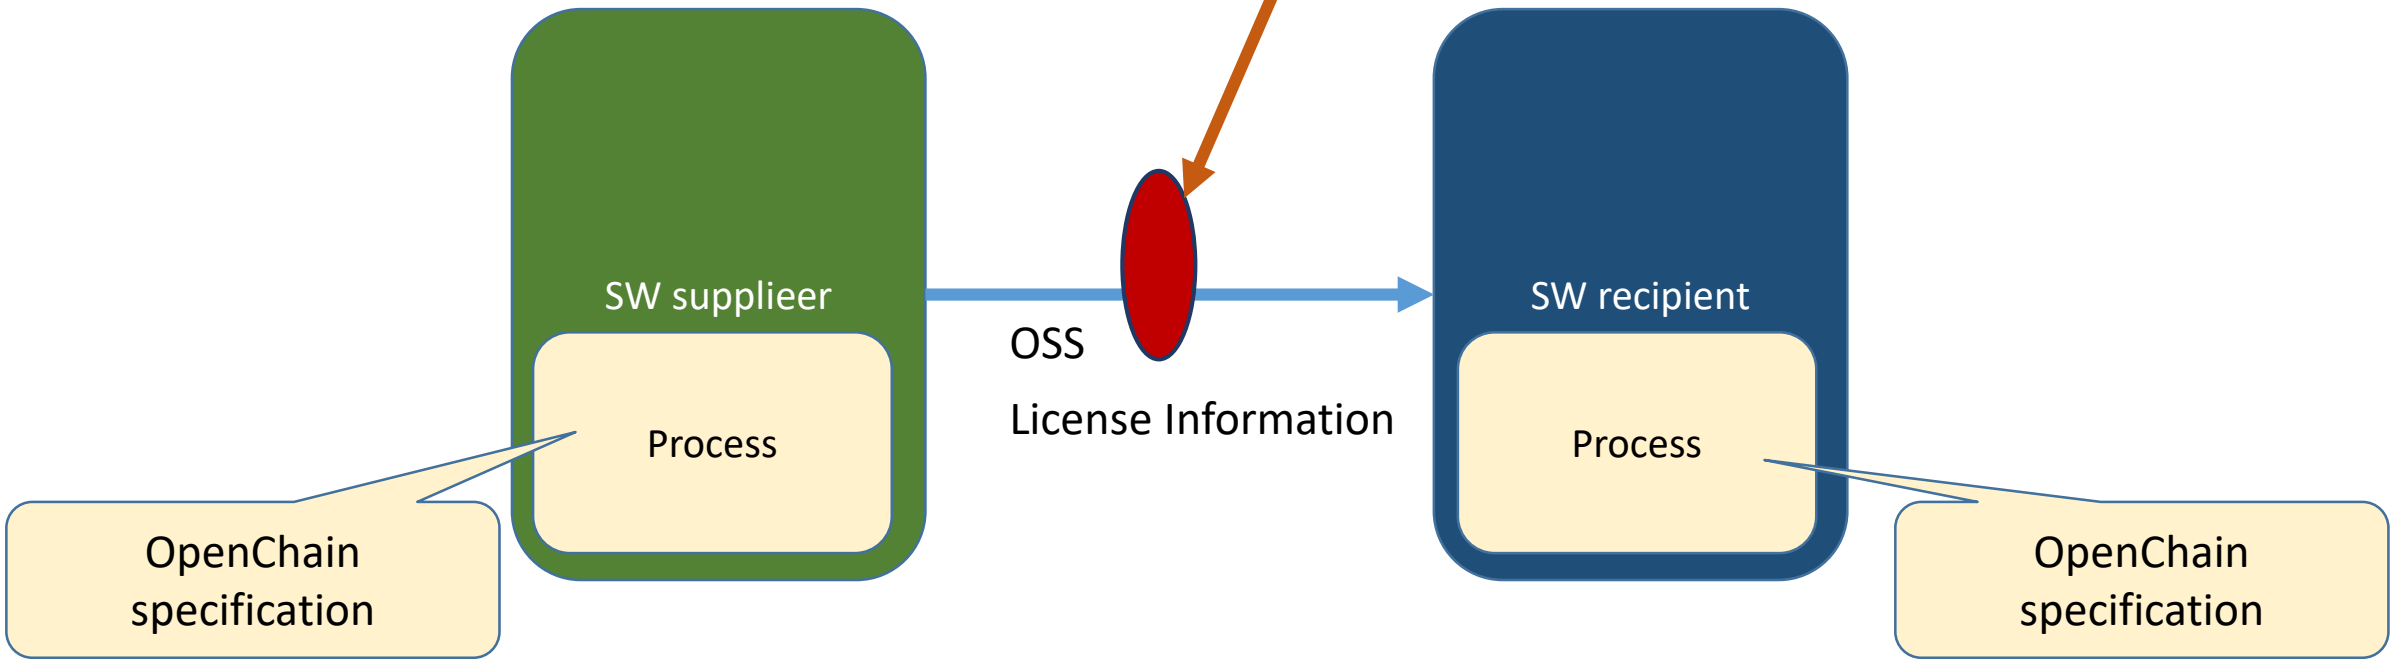

Part-II

New activities

What about building guideline for exchange of license information

Exchange license information between companies
out of scope of OpenChain
But, we need guideline?

Suggested items to be proposed:
License information
Usage of SPDX
simple /standard version
items for exchange
background explanation
sample of format
procedure of making formatted data
tooling
experiment of exchanging

Call for Proposal No.1 “license information between companies”

Call for Proposal for ideas for “exchanging license information between companies”

We would like to start the subgroup activity dedicated to this theme.

If you have proposals or comments, please contact with H.Fukuchi.

You can join the subgroup without a proposal, please contact with H.Fukuchi.

Before 10th Nov., we want to start the subgroup for preparing the first draft at the 7th meeting(Dec. 4th). (The subgroup will continue after the meeting.)

Suggested items to be proposed :

- License information

 - Usage of SPDX

 - simple /standard version

 - items for exchange

 - background explanation

 - sample of format

 - procedure of making formatted data

 - tooling

 - experiment of exchanging

Call for Proposal No.2 “Education for each roles”

Call for Proposal for ideas for “education for each roles”

We would like to start the subgroup activity dedicated to this theme.

If you have proposals or comments, please contact with H.Fukuchi.

You can join the subgroup even without a proposal, please contact with H.Fukuchi.

Before 10th Nov., we want to start the subgroup for preparing the first draft at the 7th meeting(Dec. 4th). (The subgroup will continue after the meeting.)

Suggested items to be proposed :

- definition of roles

- education material for each roles (Inbound, Outbound, Management, legal, IP, sales, etc.)

- disclosing an education material used in a company

- selecting roles

- collaboration with Curriculum work team
